

Get Ready * Get Set * Go Green!

Loper's schoolwide theme for the 2008-2009 school year is **RECYCLING!** We're **Going GREEN!**

Topics of exploration will be:

The 3 Rs of Recycling

Reduce: Loper has set a goal to reduce its paper usage. Please complete the Parent Communication Form to see how you can help!

Reuse: For those Loper Bulldogs who bring their lunch to school, every Friday is "Trashless Friday!" Food will need to be packed in reusable containers. The goal for each Friday is to have limited amounts of trash.

Recycle: Each grade level will have a recycling project. Recyclemaniacs will again collect recyclable materials and a new environmental club is planned!

And The 3 Rs of Shelbyville Central!

Relationships: You'll be hearing about our student/parent activities and our new Parent Advisory Committee.

Rigor: Loper will continue to strive for academic excellence! Two ISTEPs will be administered this year and two new assessments, Mclass/Dibels and Acuity, will be introduced.

Relevance: Loper students and staff strive to: "Be the change we wish to see in the world!"
